CUTTING-EDGE SOFTWARE/MESSAGING/COMPUTER SYSTEMS & DATA STORAGE PATENTS TO BE SOLD AT LIVE IP AUCTION ON OCTOBER 25th

Technology Recognized with “Nano 50 Award” Identifying Year’s Top 50 Nanotech Inventions

CHICAGO, IL – October 16, 2007 – Ocean Tomo Auctions, LLC today announced it will sell several Lots relating to Software/Messaging/Computer Systems and Data Storage at [The Ocean Tomo Fall 2007 Live Intellectual Property Auction](#) on October 25th at The Palmer House Hilton in Chicago.

One Lot in the Software/Messaging/Computer Systems category offers a patent addressing a self-destructing document or email messaging system that automatically destroys documents after a predetermined period of time. This patent would be a valuable acquisition opportunity for businesses that have implemented document retention policies or companies that distribute programs for time-limited sampling.

Another Lot in the Data Storage category, which includes a substantial portfolio of U.S. patents, generally relates to data storage devices, disk drives, and other aspects of storing digital information by magnetic and optical data storage technologies. This technology has been recognized with a “Nano 50 Award” from Nanotech Briefs identifying the year’s top 50 nanotech inventions.

Lots available in the Software/Messaging/Computer Systems and Data Storage categories present unique acquisition opportunities for Consumer Electronics Manufacturers, Optical Storage System Designers, Computer Manufacturers, Systems Providers and ISPs and Software Developers.
