

# EXPERT TESTIMONY PROFESSIONALS

**We are known for our “teaching” — as opposed to “telling” — approach of testimony. Rather than only providing a judge or jury with an opinion, we communicate the key facts and relevant theories in a clear and logical manner.**

Our Expert Testimony professionals have industry-leading experience across all types of disputes and are particularly skilled in the determination of damages involving intellectual property.

Our top testifying experts average over 30 years of litigation analysis experience, benefiting clients when considering the complex financial data, qualitative facts, supporting testimony, and damages-related case law. Our experts have testified regarding virtually all damage elements, including lost profits, reasonable royalties, unjust enrichment, price erosion and suppression, accelerated market entry, corrective advertising, and future lost profits. We have served as experts in U.S. District Courts, U.S. Bankruptcy Courts, U.S. Tax Court, U.S. Court of Federal Claims, state courts, the U.S. Patent and Trademark Office Patent Trial and Appeal Board, international courts, and arbitration tribunals.
