

ACCOUNTING & AUDITING STANDARDS LITIGATION EXPERT TESTIMONY PROFESSIONALS

We are known for our “teaching” — as opposed to “telling” — style of testimony. Rather than only providing a judge or jury with an opinion, we communicate the key facts and relevant theories in a clear and logical manner.

Our Expert Testimony professionals have industry-leading experience across all types of disputes. Our experts have provided testimony in deposition and at trial related to complex accounting, financial reporting and economic damages issues.

Our top testifying experts average over 30 years of litigation analysis experience, benefiting clients when considering the complex financial data, qualitative facts, supporting testimony, and damages-related case law. We have served as experts in federal courts, including the US Court of Federal Claims and the US Court of Appeals for the Federal Circuit, US Bankruptcy Court, the Ontario Superior Court of Justice, before the International Trade Commission, domestic and international arbitration venues, among others.
